

SHUBHASHISH CHAKRABORTY

Full Stack Developer

+91-8602061128 shubhashish147@gmail.com mww.imshubh.site

ABOUT ME

I'm a passionate Full Stack Developer with a strong focus on backend development. I love building scalable, efficient systems and take pride in writing clean, maintainable code. Beyond just coding, I genuinely enjoy sharing knowledge and delivering skills—whether it's through mentoring, collaborating, or teaching. Technology isn't just a career for me, it's a passion I live by.

EDUCATION

2024 - 2028 GYAN GANGA INSTITUTE OF **TECHNOLOGY AND SCIENCES**

Computer Science Engineering IOT, Cyber Security, Blockchain Technology

PROJECTS

• StudyWithShubh 🔼 🧖

A platform I created to help Folks with tech subjects through live classes and recorded sessions. This project merges my passion for learning, Teaching and web development, offering accessible tech education.

ConvoRoom

A fast and secure real-time chat application powered by WebSockets. Supports instant message delivery, typing indicators, message timestamps, and responsive design for mobile and desktop. Built for seamless, cross-platform communication with a clean, intuitive UI.

LetMeRecall

LetMeRecall is a Digital Second-Brain designed to help users store and organize their thoughts, links, and multimedia content seamlessly. It supports various content types, including YouTube videos, tweets, documents, images, and more, ensuring all user data is easily accessible.

EXPERIENCE

• Nuvance Technologies [7]

2025 - PRESENT

Full-Stack Developer

As a Lead Developer, I spearhead the development of the company's website and client projects, ensuring high-performance, scalable solutions. My role involves end-to-end ownership—architecting robust frontend and backend systems while optimizing user experience. I thrive on solving complex challenges and delivering innovative tech solutions that drive business impact. Passionate about mentoring peers and staying ahead of emerging technologies to elevate team productivity.
